PROBLEM & SOLUTION OVERVIEW

PROBLEM

The Global Burden of Disease project has shown that skin diseases continue to be the 4th leading cause of nonfatal disease burden world-wide.

A large proportion of people with skin diseases do not seek medical attention or delay seeking treatment.

SOLUTION

Help people detect dermatological diseases early, and save time and treatment costs.

NEED-FINDING

The Interviewees

WHO

Vietnamese people from 18-60 years old

HOW

Meet the above 2 conditions and agree to be interviewed

WHY

Because they tend to have health skin problems

WHERE

Private space, places must be approved by the interviewee like hospital, cosmetic shop...

Who were our interviewees ?

Nguyen Thi Kim Hoa

Dang Thi Huyen

Nguyen Ngoc My Uyen

Pham Thanh

Huynh Thi Yen

Vo Van Tu

Bui Thi Kim Lien

Nguyen An Nhien

Dinh Ngoc Son

Nguyen Huy Hoang

THINK & FEEL
HEAR
SEE
SAY & DO
PAIN
GAIN
Product of unknown origin
take it lightly and be subjective because it's just a skin disease
Expensive treatment costs
Afraid it will take time for treatment
Not confident in front of people when the skin has problems
Couldn't find a suitable treatment
Tired, have freckles, need to see a doctor soon
Poor body hygiene
Confused between 2 products
Fear of misdiagnosing skin diseases
Want to have method thrifty treatment and suitable
Regularly visit the project
Pressure and nature of work
Smog
Hereditary skin diseases
Stimulants (alcohol, beer, ..)
Entertainments (Bar, pub, ..)
The people in the family
Eat foods that are high in fat and sugar
irregular diet
endocrine changes
Sensitive skin, seasonal allergies
The weather changes erratically
Daily routine
sunshine
Using the wrong skin products
Working environment (buildings, vehicles)
puberty, perimeno pause
stay up late, stress
Only care about outer beauty (skin) but not inner health
Makeup to cover skin imperfections
skin determines age, not year
Skin affects future career opportunities
Beautiful skin is created by healthy lifestyle
Will lose confidence when others see the diseased skin
Your skin shows your health
When I see anything abnormal on my skin, I will go to the doctor immediately for fear of serious illness
Very few people have naturally beautiful skin
best shape, second skin
advertising on social networks
busy from morning to night, so don't have time to see the doctor
often go on business trips, takes more than 2 weeks to see a doctor
afraid of using skin products of unknown origin
Fear of the eyes of others.
The contact environment is not clean
Affected by many harmful substances
It's hard to enhance the quality of skin
Constantly having to go to the doctor and get treatment regularly
Unbalanced diet
the price of product is quite expensive
A healthy skin
have a doctor who is flexible in terms of time
Want to learn good habbits from friends
I can go to the gym in the morning to improve my health and skin
Will rarely meet friends and find functional foods to quickly recover
Schedule and search for treatment to reduce time for each examination and treatment
online medical examination
want accurate and economical method
Suitable diet
Want to recognize early symptoms of skin disease

THUC ANH

AGE:	21
GENDER:	Female
JOB:	University Student
LOCATION:	Danang , Vietnam

ABOUT

- A hardworking and budget-conscious student at Danang University of Economics.
- Frequently uses social media platforms like TikTok, where she follows KOLs (Key Opinion Leaders) for product recommendations.
- Health-conscious but often limited by financial constraints

GOALS

- Save money while maintaining proper skincare.
- Purchase affordable, reliable, and safe cosmetic products.
- Avoid falling for misleading advertisements or unreliable products.

PAIN POINT

- Products bought based on social media recommendations or advertisements have caused skin allergies or worsened her skin condition.
- Struggles to find affordable cosmetics with clear origins and trustworthy reviews.
- Lack of reliable sources for evaluating low-cost products.

TRANG

AGE:	38
GENDER:	Female
JOB:	History Teacher
LOCATION:	Danang , Vietnam

ABOUT

- A busy professional balancing her teaching career with managing her fruit shop.
- She prioritizes self-care and is willing to invest in high-end skincare products.
- However, she lacks knowledge of proper skincare routines and techniques to maximize the effectiveness of these products.

GOALS

- Achieve healthier and more radiant skin by learning proper skincare methods.
- Engage in a supportive community where people share effective skincare routines and healthy habits.
- Gain advice directly from dermatologists to ensure her skincare efforts are backed by science.

PAIN POINT

- Despite spending significant amounts on high-end cosmetics, she is frustrated with minimal results due to improper usage.
- Feels overwhelmed by conflicting information online and seeks a credible, centralized source for skincare advice.
- Struggles to find time in her busy schedule to research or consult experts.

QUANG

AGE:	45
GENDER:	Male
JOB:	Project Manager at Construction
LOCATION:	Danang , Vietnam

ABOUT

- A highly busy professional in the construction industry, often working long hours and managing multiple projects.
- Prioritizes work over personal care due to time constraints, leading to neglected skincare issues.
- Values solutions that are efficient and time-saving.

GOALS

- Address and treat skin issues without disrupting his tight work schedule.
- Access expert medical advice without needing to visit a hospital in person.
- Maintain healthy skin through effective yet convenient solutions.

PAIN POINT

- Lack of time to visit a dermatologist for in-person consultations.
- Skin problems worsen due to neglect, causing discomfort and potential long-term effects.
- Difficulty finding a service that aligns with his availability.

Final Solution

Provide users with an application for dermatology treatment

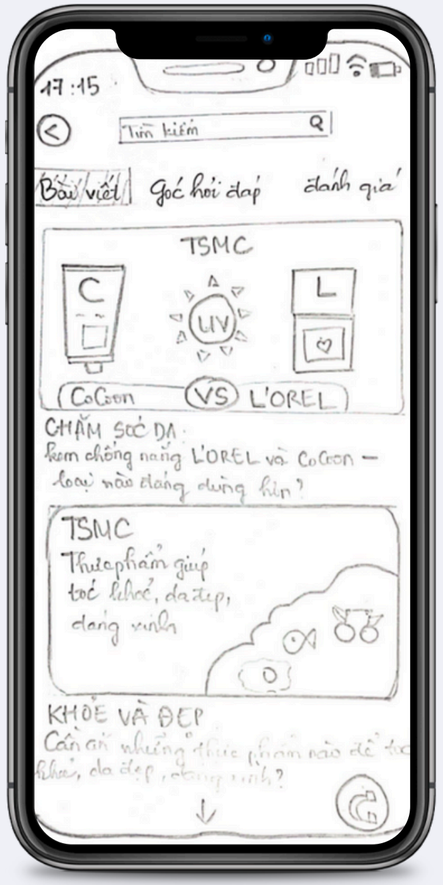

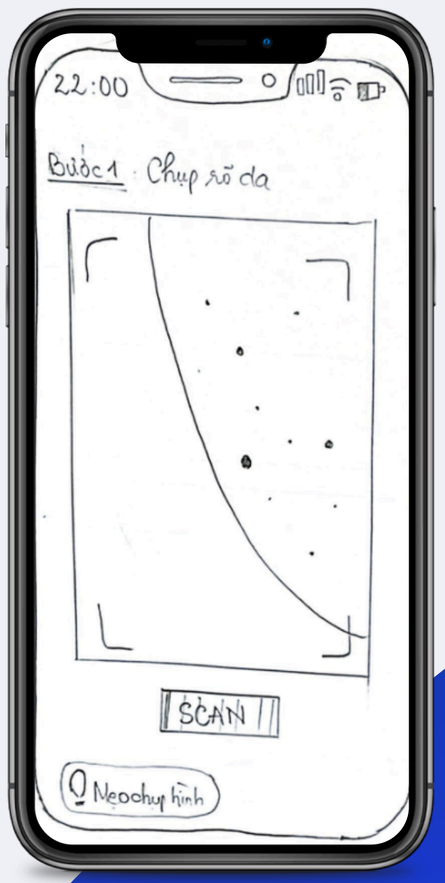

DESIGN
EVOLUTION

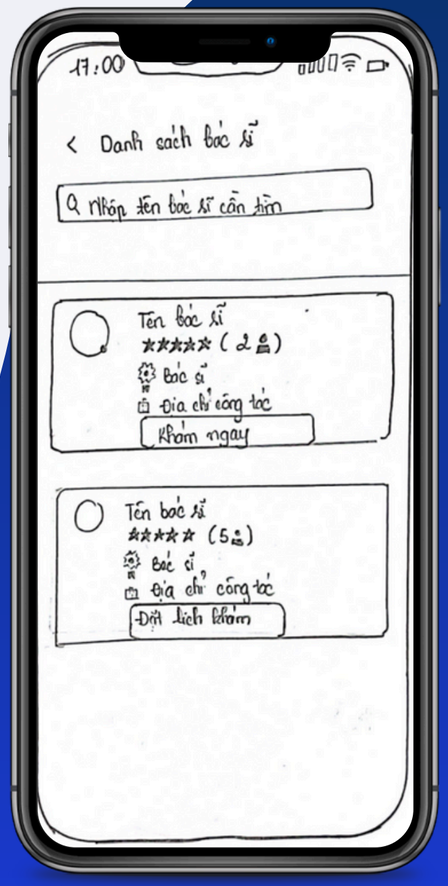

Low-fi prototype

- Initial idea based on solution
- Some messy design functions
- Less functional and unattractive

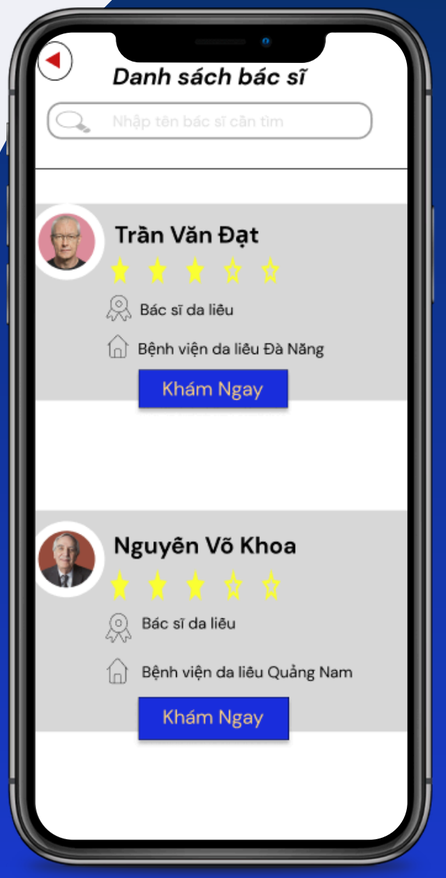

Med-fi prototype

- User interface has been improved and is more friendly
- The main functions are designed in more detail

High-fi prototype

- Enhanced security for users
- The interface is almost complete and increases user interaction
- New functions: diary and personal information
